School Report

The number of pupils enumerated by the Truant Officer between the ages of five and sixteen is ninety-four. We have been handicapped this year in the Crawley's School by several changes of teachers. This greatly hinders the work and should be guarded against whenever possible.

The other schools have been more fortunate along this line.

The School Board is glad of the increased interest shown by parents and friends of the children, the registers showing an increased number of visitors.

By this means alone can one get a good idea of the work being done in our schools.

It is costing more and more each year to run our schools and we, as parents and tax-payers, should be interested to know whether or not we are getting good returns for our money. We feel there is a vast difference between the value of the services of a conscientious, energetic and interested teacher and one that is teaching simply for the salary she is receiving, and your School Board has endeavored to employ teachers of the first class. We feel by the co-operation of three parties, namely School Board, parents and teacher, it is an easy matter to have a good school. But when any one of these three parties fails to do his duty then the efficiency of the school is lowered and the children won't get what they should for the money and time expended.

We receive from the state a certain sum of money for school purposes, regulated by the attendance of the children. This year it was \$78.75. There are throughout the town too many cases of absence and tardiness and this is especially true in Marshall's Corner School. This is where the parents should take notice and see to it that their child is in school every day, for only then can he or she get all they should from their studies.

It has been necessary to make only minor repairs on school

property this year. Next year new seats and a new floor will be necessary at Crawley's. Some of the school buildings need new shingles.

The School Board feels that the schools as a whole have been successful during the past year, but we cannot say we are satisfied with their work, for there is still chance for improvement. Let us in the coming year strive to do our duty whether it be teacher, parent or School Board, working together as one unit to make our schools the best possible, thus giving the next generation all the preparation possible to meet the problems of life.

ROLL OF HONOR
